

READ BEFORE INSTALLATION!!

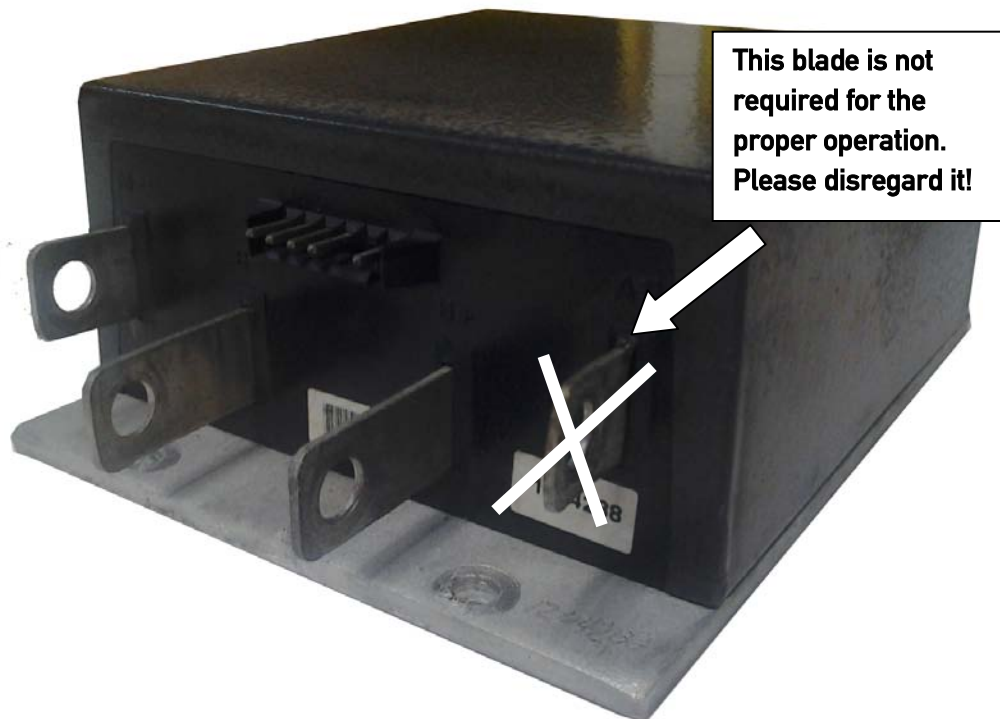

Common question: "My golf Cart has a speed control unit originally with a 4 big-blades on it. Your product has 3 blades only. Will it fit?"

Answer: YES.

-These units are interchangeable even if it sounds odd. If you had a 4 blade one and you receive a 3 blade controller from GolfRama then just disregard the 4th wire so just tape it down to your harness.

- If you had a 3 blade controller and you receive a 4 blade one from us then please don't worry about the 4th one, just leave it disconnected.

-If you originally had a 4 blade controller and you receive the same from us then please connect all of the wires in order.

Curtis Motor Controller Part, EZGO TXT Series 275 amp.Curtis 36 V 275 Amp Controller for EZ-GO, 1206 TXT Cars, 5 Pin.
